THE MARION DAILY STAR.

VOL. XII NO 130. MARION, OHIO, SATURDAY, APRIL 13, 1889. PRICE, 3 CENTS.

OHIO'S ONLY LIFE

Insurance Company

Letter of Hon. Henry Mack State Senator from Cincinnati.

Cincinnati, O., Jan. 19th, 1889.

To the Union Central Life Insurance Co., of Cincinnati, O.:

GENTLEMEN:—

I take pleasure in acknowledging the receipt of Ten Thousand and Eighty-Four Dollars ($10,084 84), the same being in payment of my Policy, No. 7856, for $10,000, issued August 16, 1871. I was among the first of your members to take a Policy on the Life Rate Endowment Plan, and I have thus made eighteen full payments at the Ordinary Life Rate, charged by you and other companies, and by leaving my dividends and profits with the Company, instead of using them to decrease the annual payments, my Policy has become an Endowment, and I have received the full Ten Thousand Dollars, an excess of $84.84.

I can cheerfully recommend the Union Central and its officers, whom I have known personally for many years. I am now beyond the age of insurance according to the law of Ohio, otherwise I should be pleased to take out another Policy, as I can only speak in the highest terms of the Company's fair and honorable dealing, and its kindness and courtesy to me. As a citizen of Cincinnati, I am proud of the great success that the Union Central has made, and the prominent place it now occupies among the largest and best companies in the United States.

I am Yours Very Respectfully,
HENRY MACK.

—o—

West Liberty, Ohio.

December 30th, 1868, I took out a $4,000 Policy on my life, through J. E. Heffelfinger, General Agent for the Union Central Life Insurance Company, of Cincinnati, O., on the 20 year Endowment Plan.

December 31st, 1888, I received the money from the Company through the same agent that insured me. It has not only proven good protection to my family, in case of death, but has been a good savings bank, and investment besides. I wish to say that I have received nothing but kind and courteous treatment from the Company all these years, and can recommend it as a good, reliable institution, of financial stability, worthy of public confidence.

A. G. WILLIAMSON,
West Liberty, Logan Co., O.

—o—

Why is the Union Central Life doing so much more business than many of its old Eastern competitors?

Because Ohio's insurance laws are more strict than those of any other State in the Union.

Because there is not a cent of her money invested in fluctuating bonds or stocks, but all must be loaned on Real Estate, worth double the amount of the loan, or Government bonds.

What State compels an examination of its companies, each year, by the Superintendent of Insurance?

Ohio.

What State never had one of its own companies fail, or in the hands of a receiver, and never had a policy holder in one of its own companies lose a dollar of his insurance?

The State of Ohio.

The advantage of doing business with a home company and home agents is apparent to all.

SMITH & CARSON,
AGENTS.
Office with Geo. D. Copeland, Marion, Ohio.

Navy's Coming Ram.

A Novel War Ship Which Will Be Built for Coast Defense.

LATEST IMPROVED TYPE.

A Brief Description of the Ram for Which $100,000 Was Appropriated During the Last Congress—Other Information Telegraphed From the National Capital.

WASHINGTON, April 13.—In the naval bill which was approved March 2, 1889, provision was made for the construction of one ram for harbor defense of the latest improved type, to be of the highest practicable speed. For this purpose an appropriation of $400,000 was made, and a further provision was contained in the bill to the effect that the ram should be of domestic manufacture.

The board of officers intrusted with the preparations have about completed their work. The dimensions of the ship as planned by them are as follows: Length, 205 feet; breadth, 50 feet; breadth over sponsons, 80 feet; depth, 18 feet; light draught, 11 feet; fighting draught, 13 feet; displacement, 1,500 tons.

An idea of this new craft may be best conveyed by her appearance, which is cigar shaped. That is she approximates the spindle form, though none of the sections are circular. From this it will appear that when in the water the exposed surface is what is familiarly known as a "turtle back."

The body of the craft is entirely of iron, with a double skin, divided into compartments by nine water tight bulkheads. The sheathing of oak is carried about three feet below the water line and entirely over the top of the vessel. This oak affords a backing for plate armor three inches thick from the apex of the sponson to two feet above the load line, and thence decreasing to one and one-half inches at the crown of the deck. A novel and valuable feature of the snout of the ram is that the apex, where the main force of the blow will be felt in ramming, is removable, so that a new one can be easily substituted in case it be twisted off by the collision.

Another novel feature of the ram is her pilot house, which, being the only exposed point likely to be injured by shot, is rendered impregnable by being built up of concentric rings of crucible steel twenty inches in thickness.

To give the ram hardiness she will be fitted with twin screws fourteen and one half feet in diameter. The vessel will be able to reverse instantly and go astern as fast as she can go ahead. The calculated speed of this ram is thirteen knots, but a speed of fourteen knots is thought entirely practicable. The ram will be able to carry 200 tons of coal, amply sufficient for six days' steaming, and has good accommodations for the four officers and sixteen men necessary to man her.

Built as now proposed by the board of experts, if she were placed as a span of a bridge, on two piers 150 feet apart, the heaviest freight train in the world could be run over her with perfect safety.

On our sea coast we have many places of importance, and the number of rams required for the proper protection thereof it it would be difficult to decide. Naval experts believe that, in view of the defenceless condition of our coast, more vessels of this type should be built. Rams of the type presented by the advisory board would cost comparatively little.

To Help Out on Samoa.

WASHINGTON, April 13.—Lieut. Parker, of the navy, will accompany the Samoan commission in the capacity of secretary.

He has been attached to the Adams for three years, and it is expected that his knowledge of Samoan affairs, acquired during the stay of the Adams at Apia, will be of assistance to the commission.

Lieut Buckingham, now naval attache at the United States legation at London, but lately attached to the Berlin mission in a similar capacity, will join the commission at Berlin, and also act in the capacity of secretary.

Favored By the President.

WASHINGTON, April 13.—The president has made the following appointments: Lyman E. Knapp, of Middlebury, Vt., to be governor of Alaska; Henry S. White, to be United States marshal for West Virginia; James Luse, register of the land office at Rapid City, Dak.; Thomas M. Reed, jr., register of the land office at Seattle, Washington Territory; Spencer Hartwig, of Covington, Ky., to be special agent to make allotments of lands in severalty to Indians.

Bids for Star Routes.

WASHINGTON, April 13.—The second assistant postmaster general has begun the opening of bids for carrying the mails on about 1,500 star and steamboat routes in the country. Nearly 25,000 bids have been received, and the clerical force of the office will be kept busy for some days opening and scheduling this large number of proposals. The contracts will probably be awarded within a week.

Centennial Decoration.

WASHINGTON, April 13.—The navy department has instructed the commandant of the New York navy yard to furnish the custodian of the custom house with a sufficient amount of bunting and flags to decorate the public buildings in New York City during the centennial ceremonies. Sailors will also be provided to render assistance in arranging the decorations.

Back from the Orange Groves.

WASHINGTON, April 13.—Mrs. McKee, daughter of President Harrison, returned to Washington yesterday evening from her Florida trip. Mrs. McKee enjoyed a delightful trip. She was presented with a young alligator while in the land of orange groves, which has been safely housed somewhere about the executive mansion.

Asking Further Time.

WASHINGTON, April 13.—The application of the Union iron works, of San Francisco, for an extension of time under their contract for the construction of the San Francisco cruiser No. 5, has been referred to a board of officers, composed of Chief Constructor Wilson, Engineer-in-Chief Melville and Capt. Howison.

Special Agents Appointed.

WASHINGTON, April 13.—Secretary Noble has appointed the following special agents in the general land office to investigate fraudulent land entries: W. N. Morton, of Texas; John Yost, of Illinois; John Shiger, of Nebraska, and Samuel A. Hawk, of West Virginia.

Gets Back His Old Position.

WASHINGTON, April 13.—Commissioner of Patents Mitchell has removed Capt. J. Burke, chief of the gazette division, patent office, and appointed J. W. Babson in his place. Mr. Babson formerly filled the position to which he was reappointed.

IMPORTANT PATENT DECISION.

The Words "Patent Applied For" on an Invention Not a Legal Protection.

DETROIT, Mich., April 13.—An important decision was rendered in the United States district court here yesterday by Judge Brown. Asa W. Straight, the inventor of a burner for a gasoline stove, upon which he had applied for a patent, brought suit for an injunction against Clayton & Lambert, who had improved Straight's burner, claiming that the device "patent applied for" on his burner protected him.

Judge Brown held that the device is no protection, and the court cannot grant an injunction, as it cannot assume that the patent will be granted by the commissioner. He further says that patents have no rights at common law, and the statute make the life of a patent at seventeen years. To grant such an injunction would be to give the patent more than its statutory life, for, if granted at all it might not be for months after the application was filed. The bill was therefore dismissed for want of jurisdiction.

Adrift in Mid-Ocean.

The Danish Steamer Danmark Abandoned at Sea.

PROBABLE LOSS OF LIFE.

Nearly Seven Hundred People Were Known to Have Been on Board the Unfortunate Vessel—The Whereabouts Unknown But Believed to Have Been Saved.

QUEENSTOWN, April 13.—The Inman line steamer City of Chester, Capt. Bond, from New York, April 2, for Liverpool, has arrived here. She reports that on April 8 in latitude 40 degrees north, longitude 37 degrees west, she passed the Danish steamer Danmark, from Christiania, Copenhagen, etc., for New York. The Danmark had been abandoned by her crew. Her stern was level with the sea and her bow stood high out of the water. She was apparently sinking.

The officers of the Chester say that they remained near the disabled steamer for some time and hailed it frequently to make sure that no one was on board. There were no signs of life however. There was no wreckage about the vessel and it is thought that all hands were saved.

The Danmark was a vessel of 2,260 tons, and belonged to the Thingvalla line. She was commanded by Capt. Knudson. The Danmark was formerly the Belgian steamer Jan Breydel. She was a bark rigged vessel, and was 340 feet long, 40 feet in breadth and 26 feet deep. She was built at Newcastle, England, in 1880.

The Report in New York.

NEW YORK, April 13.—The greatest excitement prevails in shipping circles in this city. A cable dispatch from London to the Maritime exchange says that the Inman line steamer City of Chester, had reported passing abandoned in mid-ocean on the 8th instant the Thingvalla line steamer Danmark bound from Christiansand, Norway, for New York. The Thingvalla line is probably the largest carrying immigrant line that plies between this port and Europe. The Danmark had on board when she left Christiansand for New York, on the 26th of March, 650 passengers, presumably all immigrants. Including the vessel's Capt. R. N. Knudsen, the crew numbering forth men.

The office of the agents of the steamer, Funch, Edye & Company, No. 27 South William street, has been thronged with people all the morning anxiously inquiring for later news of the vessel. Mr. Edye, of the firm, does not credit the report. He has cabled his London agent and sought by wire for further particulars from the Copenhagen branch of the firm.

The steamship Ester reached her dock shortly after 1 o'clock in the afternoon. She did not see anything of the Danmark.

No answer to the cables sent by Messrs. Funch, Edye & Company to London and Copenhagen has been received. The excitement is still very intense, and the agents are losing hope.

Encountered Heavy Seas.

NEW YORK April 13.—The steamer Britannic, which has just arrived from Liverpool, brought no news of the wrecked steamer Danmark. The Brittanic encountered heavy weather, and part of her bridge was carried away by a sea during a heavy northwesterly gale on Saturday. She brings 170 cabin and 950 steerage passengers.

Her Passengers at Copenhagen.

COPENHAGEN, April 13.—The steamship Danmark, which was sighted by the British steamer City of Chester, in a sinking condition on April 8, carried 549 passengers from here.

Rhode Island Election All Complete.

PROVIDENCE, R. I., April 13.—George T. Brown, Democrat, was yesterday elected state senator from Providence by 1,933 majority over West, Republican, and Warren R. Pierce, Prohibitionist. This completes the new general assembly, which now stands 49 Democrats and 50 Republicans on joint ballot.

Governor Ames is Not a Candidate.

BOSTON, April 13.—Governor Oliver Ames will announce in Saturday's papers that he will not be a candidate for re-election to the governorship, owing to his having plans in view that would not permit him to do so. He is now serving his third term.

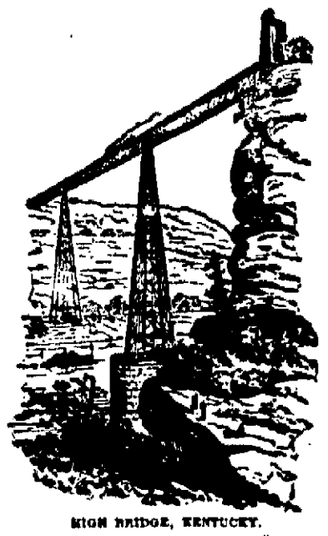

The Champion Jumper

Meredith Stanley Leaps 285 Feet, and is Still Alive.

GREATEST JUMP ON RECORD.

He Now Claims the Diamond Champion Badge Worn by Steve Brodie, He Having Jumped the Loftiest Span Having Water Under It in the World.

CINCINNATI April 13.—Ever since the Cincinnati Southern railroad was completed the High bridge on that line, just one hundred miles from this city, has been one of the great wonders of the world. This bridge has often been brought before the public, but never before in such a prominent way as now, the particulars of which has just been made known. Until Thursday afternoon no man ever leaped from this famous bridge and reached the shores of the river alive. The fearful passage through 285 feet of air into a reef of breakers has proven the death warrant of many an adventurous fellow, as well as a terrible resort to mortals bent on "shuffling off this mortal coil."

HIGH BRIDGE, KENTUCKY.

The record was broken at 12:30 Thursday by Meredith Stanley, a well known athlete and bridge jumper of this city, who last summer jumped from the suspension bridge, at this place, spanning the Ohio. Some months ago Stanley made a trip to New York, and while there personally challenged Steve Brodie, heretofore the champion of this peculiar art, but was met with an evasive answer, Brodie promising to send his reply by mail, which he has never done. Stanley, becoming impatient, and determined on winning the acknowledged championship of the world, boldly decided to venture a leap from the famous High bridge, of Kentucky, with but one exception the loftiest in the world.

With two friends, William H. Jones, of Covington, and William H. Johnson, of this city, he quietly boarded the 8:30 sleeper on the Southern road Wednesday evening, reaching High Bridge station in the morning. Thursday, after a light breakfast at Mrs. Dunner's restaurant, the trio proceeded to inspect the colossal iron span. Stanley's friends endeavored to dissuade him from his purpose, as it seemed certain and instantaneous destruction, but meanwhile the bold youth carefully learned the location of the rocks and the depth of the stream at the various points from a resident of the vicinity. Not satisfied with this Stanley hired a boat of a neighboring fisherman, and paddling about the narrow river sounded the depth with an oar. The most favorable spot was found to a point between two white-capped rocks, where the water was deepest, about twelve feet.

The party after a hasty dinner returned to the bridge, and divesting himself of his clothing Stanley donned a pair of blue silk tights and canvas slippers and made ready for the jump that seemed to his friends decided his last feat. Clambering over the railing that bounds the pathway and shouting a merry good-by to the dozen sightseers who had gathered about him, Stanley bounded far out into the air, contracting himself into a mere ball and drawing his limbs together. Like a shot he fell down, down. It seemed an age to the eager spectators, though but a few seconds to the bold bit of humanity below. High into the air like a suddenly awakened fountain the water rose as with tremendous splash the human meteor cut the surface.

Striking the craggy bottom with his feet he rebounded to the surface like a rubber ball and was immediately drawn into the waiting boat by his friends. It was some moments before Stanley gained his breath, the lungs having entirely ceased action during the fall. He coughed up quite a quantity of blood, but assured his comrades that he was "all whole." Rowing to the shore, Stanley immediately regained his clothing and fifteen minutes later was on his return trip to Cincinnati with his friends. Reaching the Grand Central depot at 7:30 he was met by his wife and returned home at once for a good night's sleep, awaking next morning a "bit sore," but otherwise none the worse for his wonderful performances.

When seen by a reporter Mr. Stanley said: "I shall at once claim the world's championship and the diamond badge now held by Steve Brodie, the newsboy bridge jumper. I feel as hearty to-day as at any time of my life. The entire science of bridge jumping is merely a study of distances and positions, and a perfect self-confidence. Most would-be jumpers lose their self-possession, and are literally frightened to death, especially as the vital functions cease entirely for a moment. I have a clear claim to the championship medal, as besides leaping from a far greater height than any other bridge-jumper, I made the plunge without a single body pad, like those always used by Brodie, and besides escaped without breaking the skin."

Mr. Stanley's jump is equivalent to a jump from the point of the old First Presbyterian church on Fourth street, one of the highest steeples in the country, being 287 feet high, two feet greater in height than High bridge. Having jumped the loftiest span having water under it in the world, Stanley's modest request now is: "Bring on your higher bridges."

CANADIAN RECIPROCITY.

Dominion Senate Passes a Bill in Favor of Freedom of Trade.

OTTAWA, Ont., April 13.—At 1:30 o'clock yesterday morning the senate concluded the debate on Senator Work's resolution to the effect that it would be unjust to the United Kingdom to levy higher duties on goods imported thence than on goods of the same character imported from any foreign country, and Hon. Mr. Abbott's amendment was adopted instead by a vote of 36 to 14.

The amendment is to the effect that it would not be in the interest of Canada to establish an entire reciprocity of trade with any foreign nation upon any condition that would restrict, with regard to others, entire freedom of action by this country in protecting its own industries, in dealing with its own sources of revenue and in regulating it own foreign trade, or that would necessitate the adoption of duties discriminating against imports from other nations, and more especially the mother country; while at the same time any measure for securing reciprocity of trade with any foreign country in such of the products of the trade of the country as may be freely interchanged with advantage to both would receive the favorable consideration of the house.

Injured By Dynamite.

Now Believed That an Attempt Was Made on the Czar's Life.

EXPLOSION IN THE PALACE.

The Czar and One of His Guards are Wounded—An Effort to Suppress the Report of the Affair—Stanley to Become a Royal Subject and Have High Honors Conferred Upon Him—Other Foreign News.

LONDON, April 13.—The report that an attempt has been made to assassinate the czar has been neither contradicted nor confirmed, but it is remembered that the attempt to kill the emperor and family by blowing up the railway train at Borki was not officially reported until the details had been known all over Europe outside of Russia for a fortnight, and consequently, in the absence of all official information about the present attack, the report is widely credited.

The general features upon which all the reports agree, are that on Sunday last a dynamite exploded within the imperial palace at Gatschina; that his majesty was injured, and that an officer of the guards was wounded at the same time.

The reports were sufficiently credited yesterday to cause a general depression in the continental market.

In Berlin and Vienna the effect on the bourses was especially marked, and the continued silence of St. Petersburg causes further uneasiness.

M. Ferry Talking Boulangerism.

PARIS, April 13.—M. Ferry delivered an address before the National Republican association last night. He said that the election of Boulanger in the department of the Seine had awakened the government and the moderates, who did not desire their throats cut. Their principal fault had been to allow the country to believe that the government was anarchy in disguise. The dissension among the parties had now diminished and the Republicans possessed means by which to vanquish Boulangerism.

Stanley to Receive High Honors.

LONDON, April 13.—It is understood that upon the return of Henry M. Stanley to England he will be naturalized as a British subject, forsaking his American adoption, and that the government will confer upon him higher honors than have ever before been conferred upon a journalist or an explorer, which two professions Stanley combines. It is also stated that the Belgian government will join in decorating and otherwise honoring Stanley.

Trying Boulanger in the Senate.

PARIS, April 13.—The senate assembled yesterday for the trial of Gen. Boulanger and others. The president of the senate read the decree constituting the senate a tribunal for the trial. Senator Quesnay then read the charges against M. M. Boulanger, Rochefort and Count Dillon and the grounds for the trial. The session then became a secret one and the public withdrew.

Reason for Resigning.

LONDON, April 13.—The Freeman's Journal expresses its belief that the resignation of the Marquis of Londonderry from the office of lord lieutenant of Ireland is due to differences which have arisen between that official and Chief Secretary Balfour with regard to the application of the coercion act.

Successful Silk Robbery.

DETROIT, Mich., April 13.—The rooms of the Horret Tailoring company in the Utopia building, corner of Bagley avenue and Clifford street, were robbed early yesterday morning of a large number of imported silk dress patterns, valued at $2,000. The burglar was discovered at work by the night watchman, but escaped. The theory is that the man had an accomplice who carted the goods away as fast as the part inside the building handed them out.

Samoan Affairs.

SYDNEY, N. S. W., April 13.—The captain of the German war vessel Adler states that in the Samoan difficulties Mataafa at first rendered assistance to the Americans alone. Repenting of his action, however, he afterwards did all he could to aid the Germans. The United States steamer Nipsic is afloat, but she is entirely useless.

Death of a Wisconsin Ex-Governor.

GRANT CITY, Mo., April 13.—Ex-Governor Farwell, of Wisconsin, died here Thursday. He was a noted politician of the northwest forty years ago. He was 70 years of age.

Some Improvement.

Business Prospects Better Than One Week Ago.

AN ENLARGEMENT OF TRADE

Sugar, Coffee, Cotton, Butter and Oats Have Advanced While Wheat, Corn, Pork Products, Print Cloths and Leather Have Declined.

NEW YORK, April 13.—R. G. Dun & Company's weekly review of trade says: In spite of continued dullness in many quarters and some disturbing failures, there are distinct signs of improvement in business. Reports from interior points, almost without exception, indicate an enlargement of trade, though it is but slow at some, and where the iron trade is important, increase in volume is neutralized by unsatisfactory prices obtained. Rapid advances in sugar, coffee, cotton, butter and oats are nearly balanced by the decline in wheat and corn, pork products, print cloths, leather and other articles, so that general average of prices is but a shade higher than a week ago. But further disbursements by the treasury have increased the already abundant supply of money; the market for securities has improved, and exports continue to increase.

The most significant feature of the week's commercial news is the report of furnaces in blast April 1, which shows a weekly output of anthracite and bituminous iron only 637 tons less than March 1, and nearly 37,000 tons or 30 per cent. larger than a year ago. Restriction in some localities appears to be nearly balanced by increase in the output elsewhere, and the significant fact is that, with a production close to the largest ever known, prices scarcely yield at all, and no depressing accumulation of stock is visible. These fact, in connection with the narrow demand for rails, indicate that the consumption of iron in other forms must be increasing. Accordingly the market for structural iron is distinctly better. More orders are reported in plate and tank iron, though some mills are not yet at work. The demand for sheet iron is fair, and rails are firm at $27 to $17.50, though sales are but 10,000 tons. Reduced production makes nails firmer, and bar iron is still irregular and low, but for some other kinds of products the demand is better. Pig iron is rather weaker, on the contrary, and some southern is offered below $17 for No. 1, while mill iron ranges from $14.75 to $15.50.

The sharp advance of thirty-two cents per hundred pounds in raw sugar, with the purchase of the San Francisco refinery for the trust, accompany a sudden rise of six cents in the trust stock. The statistical position of raw sugar is considered strong and the demand is full.

The boot and shoe trade is said to be large beyond precedent, but the demand pushes makers toward low prices rather than good quality. Leather is a shade lower and hides are believed over-abundant.

The market for cotton goods is moderate, and print cloths are an eighth lower, but exports continue to exceed last year's more than receipts, and raw cotton has risen a quarter. The official return shows exports of 284,000,000 pounds in March against 156,000,000 last year, the increase in value being over $10,000,000.

In oil the increase in quantity exported was small, and lower prices caused a decrease of $300,000 in value for March, and the market has been dull and weak.

Woolen manufacturers and dealers are excited by the news that the recently appointed appraiser at Philadelphia has advanced the duty on worsteds to correspond with that on woolens, and some believe that a similar ruling will soon be made here and at other ports. The importation of worsteds in great quantities, at low rates of duty, has changed operations in many woolen mills, and the manufacturers are gratified by the new ruling while the importers will resist it in the courts. The market for raw wool is stronger in tone, and an advance in price is expected.

Copper and tin are still somewhat weaker, and the excessive supplies still depress the coal market, which is worse than dull. The volume of business is unsatisfactory, and sales below schedule rates are reported.

Without exception, reports from the interior show that money is abundant, though in a few instances the demand is improving. Fear of disturbance in connection with April settlements having passed, the supply would doubtless have been ample, even if the treasury had not taken occasion to accept bonds offered at higher rates than before, and thus to check the accumulation of money. The disbursements for the week have exceeded the receipts by $2,800,000. No demand from abroad appears as yet, though foreign exchange has been strong in spite of some purchases of securities on European account.

The stock market, owing to those purchases, and an apparent change in the plans of some operators, has been stronger, with a sharp advance in a few stocks, and sales for the week have reached 1,500,000 shares. A more important symptom is that exports of merchandise from New York for April thus far exceed last year's by 18 per cent., and the further fall of one and one-half cents in wheat, and one cent in corn tends to increase the movement. The government report, just issued, puts the condition of winter wheat at 94, which produce exchange authorities estimate foreshadows a yield of 318,500,000 bushels of winter wheat alone. The reports of increase in spring wheat acreage continue, and sowing has progressed favorably, the season being about three weeks earlier than last year.

The business failures occurring throughout the country during the last seven days number for the United States 212, and for Canada 27, or a total of 239, as against a total of 222 last week, and 240 the week previous to the last. For the corresponding week of last year the figures were 223, made up of 200 failures in the United States, and 23 in Canada.

The Nebraska supreme court has decided that a note given to cover margins in a grain option deal, where no grain was really to change hands, is invalid.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity strength and wholesomeness. More economical than the ordinary kinds, and can not be sold in competition with the multitudes of low test, short weight alum or phosphate powders. SOLD ONLY IN CANS. ROYAL BAKING POWDER CO., 106 Wall St. N. Y.

SHOT IN HIS OWN DOOR.

Cold-Blooded Murder Near North Vernon, Indiana—Origin of the Trouble.

NORTH VERNON, Ind., April 13.—Late Wednesday night Joseph Maynard went to the residence of Hery Roan, who lives about six miles north of this place, and called him to the door and shot him without saying a word. The weapon used was a shotgun, which was heavily loaded. The shot was discharged mostly in the head of the unfortunate victim. Mr. Roan cannot recover.

Maynard attempted to escape, but word was received here late Thursday afternoon that he had been captured by the sheriff. The cause of the trouble is reported to have been that last Sunday night Mr. Roan heard some one in his dwelling house going through the drawers of his bureau, and on examination it was found to be this same man, Maynard. Maynard said if Roan related the circumstance he would kill him. The next day Roan told the facts to his neighbors, with the result aforesaid.

Bad Accident in a Foundry.

YOUNGSTOWN, O., April 13.—While pouring a heat to make a 4,000-pound casting Thursday night, in the foundry of William Tod & Company, it exploded, hurling the molten metal in every direction. George Bryant, foreman, was leaning over the flask at the time, and received the full force of the explosion, literally roasting him. He was conveyed home in an ambulance, and will not survive his injuries. Frank Lee, a molder, was standing near Bryant, and was almost as badly burned, but it is believed he will recover. John Anderson, Nick Carroll and William Kurz were burned about the face and head, but not regarded dangerous.

Italian Murderer Arrested.

SCRANTON, Pa., April 13.—Carlo Grande, the Italian who murdered Antonio Pendolph here six weeks ago, was arrested Thursday in Uniondale and brought here. His hiding place was betrayed by an Italian, John Mendecini, who receives $200 reward for aiding in the arrest. Mendecini is denounced by his fellow countrymen as a traitor, and threats are made to put him out of the way at the first opportunity. Grande had been supplied with money and was to have fled from the country shortly.

A Mysterious Disease.

LINCOLN, Ill., April 13.—An extremely malignant and mysterious disease resembling in some respects scarlet fever has broken out in the country a short distance east of this city. So far some dozen cases have been reported, all proving fatal. The disease usually runs its course within thirty-six hours, and so far has been confined to children.

A Vessel Seized for Smuggling.

SAN FRANCISCO, April 13. — Hawaiian islands advices state that the government seized the bark C. D. Bryant, at Honolulu on March 23, for smuggling. The customs officers found sixty tins of opium on board the vessel. The bark can be confiscated provided it can be proved that her captain was knowing to the matter.

A Mayor Stricken with Paralysis.

HOT SPRINGS, Ark., April 13.—Yesterday afternoon Mayor J. S. Eskelman, of Grand Forks, Dak., was stricken with paralysis while riding. He died during the night. He was a prominent banker.

SATURDAY, - - - APRIL 13.

This paper would be lacking in decency to engage in a controversy with the giant kicker and croaker of the city. Some individuals are so situated that they can not be properly clubbed without hitting innocent connections, and since the croaker who alludes to "the filthy slush known as the Star" is so situated, we pass him.

A Toledo woman has petitioned the courts for a divorce from her husband, on the ground that he is a base ball crank. This case will naturally be watched with interest. Many marriage ties hang by slender threads if base ball crankiness is to be a ground for divorce. Perhaps the women are beginning a war on hobbies.

An enterprising but unscrupulous citizen of New York City found an opportunity to put money in his purse in the inconvenience to which strangers in that city on Sunday find themselves when attempting to buy a drink of liquor. His plan of operation was to purchase a supply of bottles of the most popular beverage on Saturday night, and with one of these bottles in his coat pocket he perambulated the streets where saloons were numerous, and sold to disappointed tipplers drinks from his bottle at a large profit. He succeeded admirably until he happened to secure for a customer a policeman in citizen's dress.

Keppler's Fortunes.

[Toledo Bee.]

"Keppler's Fortunes," as personated by the ever-welcome Gus Williams and his excellent troupe at Wheeler's last evening, was thoroughly enjoyed by an audience which filled the house. The play, recently and expressly written for Mr. Williams gives him a rich and wide field for that humorous delineator of the German character for which he is so famous. The plot is held together by a series of amusing situations and brightened by catchy songs, sung as only Gus Williams can sing them. The rise and fall of the vain but ever honest Teuton brings to the surface all that is good with some that is evil in the human character. The fidelity to old friends and honest abhorence of dishonesty when circumstances make him immensely, but fortunately for his own peace of mind only temporarily, wealthy, more than counterbalances the vanity displayed in the futile and amusing attempts to excel in the high station to which he believed his newly-acquired riches gives him a clear and undisputed title. The cast of characters is strong.

At Music Hall next Monday night, April 15th.

—A good audience was delighted by the entertainment given by Blind Tom, Friday night. His strange musical ability, the wonder of the musical world, is marvelous indeed, and one is not only highly entertained by his charming music but is lost in contemplation of his strange supernatural power. His imitations were extraordinary and his execution of difficult selections admirable, though the instrument used here was far from being fit for concert work. None in the audience would volunteer to render a selection for his reproduction, so that feature was not witnessed, but Tom performs the feat, no matter how difficult or classic the selection is. He is truly a wonder.

A Pleasing Sense

Of health and strength renewed and of ease and comfort follows the use of Syrup of Figs, as it acts in harmony with nature to effectually cleanse the system when costive or bilious. For sale in 50c and $1.00 bottles by all leading druggists.

Prospect.

The first of April brought many changes to the citizens of this place, especially those who moved from one house or locality to another. We note the following removals: J. E. Stifrit from Elm to Main street, M. H. Wottring from his father's house to his own; J. F. Moore from west side of the river to north Main street; Adam Morrow from Eagleville to Prospect; and several more families yet to move.

M. L. Adams held a public sale at his late residence south of town, last Thursday. Mr. Adams removed immediately after the sale. I did not learn the locality.

The tramps are becoming very numerous here lately.

The election passed off quietly. The democrats are badly alarmed over the result, it showing a steady republican gain. The republicans elected one trustee and clerk; the democrats one trustee (short term,) treasurer, assessor and justice of the peace. All that is necessary to insure success to the republicans, is for them to act in harmony and not have any dissentions in the party.

Miss Lena Warren, of Warrensburg, Delaware Co., is visiting this week at J. F. Moore's.

Miss Iva Mohr is spending her vacation at home with her parents, Mr and Mrs. J. F. Mohr.

C. H. Brenizer was at home for a few days at election time.

The republican caucus elected the following gentlemen as a township central committe for the ensuing year: C. H. Brenizer, R. L. Riley, J. V. Boyd, J. P. Perry and T. J. Glidden. The committee organized as follows: C. H. Brenizer, Chairman and R. L. Riley, Secretary.

John Owens was in town Saturday on business.

Mrs. M. S. McCausland took a trip to Lancaster Tuesday.

A son of Jacob Jones, living on the Wm. Gast farm, died yesterday. The death resulted from scarlet fever.

R. L. Riley sold his cattle to A. D Northrup, who will ship them Saturday

W. C. Wottring will make a trip to the southern part of the State, the latter part of the week, on business connected with manufacturing windmills.

Quite a number of our young men went to Marion last night, attending the "statuary show" there.

Prof. Miller and his able assistants, commenced school again Monday, for a term of two months.

Mrs. Lucinda Boxwell will offer at public sale, at her residence three miles north of town, Saturday, her stock, farming implements, etc.

The ladies of the J. E. C. gave a very elegant supper Monday evening, at the home of Mr. and Mrs. J. F. Wottring.

April 10th. M

Claridon-Adelaide.

Henry Garvin, of Fowler, was in our town on business a day or two last week.

Quite an interest is being manifested in the protracted effort at the M. E. church.

Miss Mattie Ullum began a summer term of school in what is known as Epley's district Monday, Aril 8th.

Dr. W. F. Haley, who has been spending a few weeks with his parents and friends, returned to Chicago Tuesday evening.

Mr. and Mrs. John Metzgar and son called upon Dr. Devore and family Sabbath afternoon.

Miss Myrtle Willison spent Sabbath with Miss Mattie Ullum.

School election in our village was unusually quiet. J. W. Devore, M. D., was reelected one of the Board.

Wm. Morrison is enumerated on the sick list, but reports say he is improving.

Rev. Ashbaugh was called home after service Sunday evening, by the sickness of his family.

On account of commencement at Delaware being postponed until June 29th, Miss Lura Aye will enjoy another week's vacation.

Miss Kate and Sophia Hineman and Mr. George Miller dined with Dr. Devore and family Tuesday.

Miss Rose Smith is suffering with sore throat.

Mr. and Mrs. Ullum spent Tuesday in Mt. Gilead.

Ruhman & Mitchell started out with their new huckster wagon Monday.

Mr. Hugh J. Morrow has taken unto himself a wife—one of Guernsey county's fair daughters

Mr. John Shrock is quite low. He is now attended by Dr. Devore.

Mrs. Jacob Bowser and neice, Minnie Smith, called upon Frank Morrow Wednesday, and found him able to sit up an hour at a time.

Mrs. Elizabeth Fletcher spent Wednesday with her son, James, who is much improved.

Miss Flo Devore spent Wednesday with her cousins, Mr. and Mrs. Will Morrow.

Mrs. Joseph Smithson spent a day or two with her Claridon friends.

Prof. Black, of the Marion Normal, attended the M. E. church protracted meetings, on Thursday evening.

Isaac Dildine's infant child has been quite sick for some time.

April 12th. X.

Dissolution Notice.

The partnership heretofore existing between A D Matthews and J T. Matthews under the firm name of A D Matthews & Son, is this day, by mutual consent, dissolved.

The unsettled accounts are left in the hands of A. D. Matthews for adjustment until further notice. A. D MATTHEWS.
J. T. MATTHEWS.

April 13, 1889. [sat3w

St. Paul's Church.

The services at St. Paul's church tomorrow will be as follows:

Sunday school at 9.30 a m.
Morning Prayer and sermon at 11.
Evening Prayer and sermon at 7.30.
Seats free; all are cordially invited.

For Sale.

Twenty-one Lots on Greenwood street; also 20 acres suitable for city lots within four squares of New Huber Shops. See E. B DURFEE,
Office with Scofield & Scofield. 12d12

For Sale.

Five Lots within four blocks of Court House. E. B. DURFEE.
Office with Scofield & Scofield. 12d12

CHICAGO'S ELECTION.

Judge Tuley Makes an Important Decision on Its Illegality.

Chicago, April 13.—Judge Tuley yesterday decided that by the terms of the decision of the supreme court in the Hyde Park case, the wards of Chicago was annexed to the south and west towns of Chicago, but only so far as the matter of assessments and collections went.

Judge Tuley's action is quite generally conceded to indicate that the point that the recent city election is technically void was well taken. No serious result, however, seems probable. Lawyer Root, who incidentally raised the city election question, said that, having attained his object of keeping the Cicero trustees in office, he would now let the agitation drop.

Street Car Laborers

They Are Not Working at Several Places.

CAR TRAVEL SUSPENDED.

Attempts Made to Run Cars Under Police Protection But the Strikers Prevent the Efforts to Become Successful—A Small Riot—Other Labor Troubles.

Minneapolis, Minn., April 13.—Not a wheel was turned yesterday on any of the street car lines until 1 o'clock in the afternoon. At that hour a car was started under police protection, but after a run of two or three blocks the conductor ordered the driver to pull back to the barn. It was said the men gave the conductor $10 to turn back.

A second attempt at 2.30 proved more successful. About a block away from the barn the strikers threw the car from the track, but it was soon put on the rails again and successfully accomplished a round trip. No further attempts were made to run out cars.

A Small Disturbance at Rochester.

Rochester, N. Y., April 13.—For the first time since the strike began, evening runs were attempted last night, but the experiment was not a success. On the North Clinton street line, barricades were erected and the driver of one car was afraid to get down to remove them. Twelve policemen were called to the place and were stoned by the crowd, one officer getting hit in the back. The windows of one car were shattered and the driver was struck on the hand with a brick. The cars were taken off early. Several Pinkerton detectives are on guard on the cars. Seven arrests were made.

The Trouble in St. Paul.

St. Paul, Minn., April 13.—The strike of St. Paul Street Car company employes was inaugurated on the Lafayette avenue line shortly before 3 o'clock in the afternoon. At 4 o'clock all the cars had been run into their respective barns except three on the University avenue line. The latter made trips at intervals in charge of non-union men but ceased running at 5 o'clock. So far the cable men have refused to join in the strike, but they will hold a secret meeting and probably conclude to go out.

A Big Shut Down.

Newark, N. J., April 13.—The Kearney mills of the Clark thread works shut down last night. The hands were told that the shut down was for an indefinite period, its length depending on how long the strikers continued their rebellion against the 15 per cent. reduction in wages. The strikers met last night and resolved not to return to work at the reduction. The hands in the Newark mills are uneasy, and it is probable that the strike will extend to them, in which case there will be 2,000 people on strike.

Suicided to Escape Pain.

New York, April 13.—Justine Genez, aged 22, shot and killed herself Thursday, to escape the pain caused by a chronic disease. She was the daughter of August Genez, proprietor of the Schuetzen park in Harlem. She left a note for her mother asking that her father and friends be told that the shooting was accidental.

Shot His Brother-in-Law.

Des Moines, Iowa, April 13.—Near Sigourney on Wednesday Herman Smith and his brother-in-law, John McNabb, quarrelled over the right to use water from a well which their families had been using jointly. Revolvers were used and Smith shot and fatally wounded McNabb. Smith is in custody.

FRESH FROM THE WIRES.

News in Brief From All Parts of the Country.

Oxford, O., will soon be lighted by electricity.

Ed Champ, a notorious ex-convict, was arrested at Kokomo, Ind.

At Danville, Ill., William H Bright committed suicide with morphine

George Ebert was arrested at Miamisburg, O., on a charge of forgery

John Lyons, 50, Newtown, Conn., killed by an electric street car at Derby

Miss Novadi Deskins was criminally assaulted by a tramp at California, Mo

Mrs. M. J. Chase, of Philadelphia, was elected president of the McAll mission.

Flicker Jones was cut with a razor at Portsmouth, O., by a Greenup, Ky., barber.

Dr J E Lowes and Dr. Shuler have been appointed surgeon pension examiners for Montgomery county, O

A bank in a sandstone quarry caved in at Gate City, Ala., killing one man and seriously injuring two others

The Farmers' Alliance throughout Southern Indiana are making war on the monopoly prices of binding twine.

Nearly $1,000 worth of diamonds, belonging to Lydia Thompson were stolen from the Palace hotel, in Cincinnati

A negro named Law, who is crazed on religion, killed his 5-year-old son, near Savannah, Ga., as a sacrifice to his God.

A 5-year-old boy died in New York from the effects, it is alleged, of a warning received at the hands of three older boys.

Charles Meeler, a farmer, living near Liberty, Ind. has been adjudged insane and taken to the Indianapolis insane asylum

Larkin Lancaster was found guilty of murder in the first degree at Pulaski, Tenn. He was on trial for the murder of a man whose body was found tied in a sack and sunk in a creek.

A sheriff named Smith was arrested at Birmingham, Ala., on two grand jury indictments, one charging him with carrying concealed weapons and the other assault with a weapon

A Small Cyclone.

Cleveland, O., April 13.—A special from New Philadelphia, O., says: A cyclone struck the rising town of Beidler yesterday afternoon and demolished six dwellings. William Lewis' 12 year-old daughter was caught in the ruins and fatally injured. Others were badly hurt. Particulars are meagre.

Interchange of Civilities.

Boston Man—Talk about style or culture in New York! We have in Boston a Norwegian prince in the millinery business and several fashionable tailors who head their circulars and letter heads with quotations from Emerson!

New York Man (with interest)—I am glad to hear of them. When we have completed our arrangements for annexing Boston to New York we expect, of course, to learn all about our suburban curiosities.—Chicago Tribune.

Out of the Frying Pan.

The fresh spring winds begin to blow,
The robin sings his roundelay;
No more we shovel off the snow,
Or ashes on the sidewalks lay.

No longer high priced coal depletes
Our purse or stirs within us ire;
The glowing sun our houses heats,
We need no more the parlor stove.

But are we blest? Not much you bet;
We heave the sigh and drop the tear.
House cleaning comes our lives to fret,
And carpet beating time is here.
—The Boston Courier

His Vocation.

"My friend," said a solemn man, "have you ever done aught to make the community in which you live the better for your living in it?"

"I have done much, sir," replied the other humbly, "to purify the homes of my fellow beings."

"Ah," continued the solemn man, with a pleased look, "you distribute tracts?"

"No, I clean carpets."—Binghamton Republican.

All Hopes Dashed.

Champion Sprinter—Who is this "Unknown" who is to race me to-morrow?

Trainer—All I can learn is that he has been doing business in the city and living in the suburbs for the past twenty years.

Champion Sprinter (dejectedly)—Mercy on me! I'm lost. I can't win in a race with a man who has been catching trains for twenty years.—Philadelphia Record.

The Coal Man's Lay.

The coal man he whistled a melody gay,
As he fixed up the scales in a fanciful way;
And he nodded and smiled while he carolled this lay
"As we journey through life, let us live by the weigh."
—Merchant Traveler

First Steps.

"Thump-rattlety bang" went the piano.

"What are you trying to play, Jane?" called out her father from the next room.

"It's an exercise from my new instruction book. First steps in music," she answered.

"Well, I thought you were playing with your feet," he said grimly; "don't step so heavy on the keys, it disturbs my thought."
—Munsey's Weekly

Tired Out.

The distressing feeling of weariness, and exhaustion without effort, which makes life a burden to so many people, is due to poverty of the blood and feeble vitality. If you are suffering from such feelings, Bluthlober is just what you need, and will be of the greatest benefit to you. It purifies and enriches the blood, imparts tone and vigor to the whole system, aids digestion and overcomes all morbid tendencies and nervous affections caused by a depressed state of the blood, strengthens and builds up the system, while it radicates disease. It is pleasant to take and the dose is small. Try it and be cured. Price $1.00.

Sold by W. B. Foye.

Swan Gets Five Years.

Boston, April 13.—Edgar Swan was arraigned in the United States court yesterday and plead guilty to a charge of embezzling $67,000 from the National City bank of Lynn of which he was teller. It was shown that Swan had voluntarily confessed his guilt, and had turned over the shares of various stocks to the value of $34,000. He was sentenced to five years imprisonment in the Lawrence jail, the minimum penalty for the offence.

Three Children Fatally Poisoned.

St. Cloud, Minn., April 13.—At St. Joseph yesterday Sebastian Merdam, a German farmer, who came from Bavaria about a year ago, was engaged in plowing. Four of his children were playing in the field, and following the furrows, found roots of wild parsnips which were plucked up, and all ate of them. They soon became violently sick, and three of them died in terrible agony.

Toledo, O.

J. M. Loose Red Clover Co, Detroit.—Gents: I commenced taking your Extract Red Clover two years ago, for Erysipelas, and have not been troubled since. It is hereditary with me. Think you have the best blood medicine known.

Yours Truly, W M. SEIBERT.

Sold in Marion, O., by W. B. Foye, Druggist.

For Diseases of Horses

There is nothing that compares with Cole's Veterinary Carbolisalve. It cures Cuts, Wounds, Bruises, Collar and Saddle Galls, Sores, Mange, Scratches, Thrush, Inflamations and all skin and hoof diseases quicker than any other remedy. It is the only preparation that will invariably renew the hair its original color. Edwin D. Bither, driver of Jay Eye See, says: "Having given Veterinary Carbolisalve a thorough trial, I can fully endorse it, and take pleasure in recommending it to all owners of horses as the best remedy that I ever saw for general stable use." Large cans $1.00; Small cans 50 cents. Sold by W B Foye

Frank Lee was fatally burned, and several other persons seriously injured, by an explosion in a foundry at Youngstown, O.

Four men, who robbed the Atlantic and Pacific train at Canon Diablo, Ariz., were captured in Utah Territory after a pursuit of two weeks

Tornado Tears Through a Town.

Cedar Rapids, Iowa, April 12.—A terrific gale struck Tama City, forty miles west of here yesterday afternoon, unroofing and razing buildings. No one was injured. The storm cloud occasioned great alarm among the people.

Plush Importers Fail.

New York, April 12.—Kell & Company, woolen and plush importers, 480 Broome street, have failed, owing to the suspension of their parent house at Bradford, England. The American liabilities are stated at $97,000

Rockwood, Mich., Feb 6, 1882.

J. M. Loose Red Clover Co:—I have used your Fluid Ext. Red Clover Blossoms, prescribed by Dr. A. L. Sawyer, Monroe, Mich., and have received great benefit from the same, after having suffered a great deal for years

Respectfully, Helen C. Millman.

Sold in Marion, O., by W. B. Foye, Druggist.

OUR

Advice to Everybody

who has a diseased Liver is to at once take proper means to cure it. The function the Liver is designed to perform, and on the regular execution of which depends not only the general health of the body, but the powers of the *Stomach, Bowels, Brain*, and the whole nervous system, shows its vast and vital importance to human health.

NO HUMAN BEING

should run the risk for a single day of neglecting this important organ, but should promptly get a box of Dr. C. McLane's Celebrated Liver Pills, made by FLEMING BROS., Pittsburgh, Pa., and use according to directions they will cure you promptly and permanently. Around each box is a wrapper giving full description of the symptoms of a diseased Liver. They can be had of druggists.

NEWSPAPERARCHIVE®

This picture shows two laundresses, one at work the other not able to, because her hands are cracked and sore—she has been using soap containing too much alkali. Read Prof. Leeds's report.

Gentlemen:—The sample of "IVORY" Soap which you sent to me for analysis has been received, and you will find analysis herewith. As a result, the "IVORY" Soap while strongly cleansing, leaves the skin soft and pleasant to the touch instead of harsh, uncomfortable, and liable to chap, as results from the use of many common laundry soaps, in which the ratio of uncombined to combined alkali is large. The percentage of uncombined fat in the "IVORY" is very small, hence the lather is clean, white and abundant, with entire absence of oil or grease. There are no injurious substances.

The above considerations show the "IVORY" to be a pure soap and excellent for laundry use.

Very Respectfully Yours,

LABORATORY OF CHEMISTRY, STEVENS INSTITUTE OF TECHNOLOGY, HOBOKEN, N. J.

ALBERT R. LEEDS, PH.D. PROFESSOR OF CHEMISTRY.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

$1.00. Sold by Druggists.

LONG LIFE

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver, and disease-preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

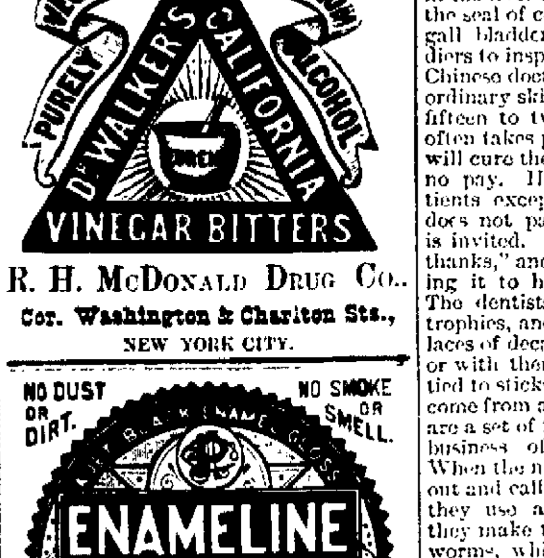

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

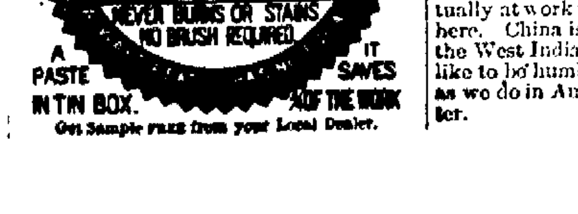

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with a fine, delicate flavoring.

CHINA AND ITS PEOPLE.

ODD SUPERSTITIONS AND NOTIONS OF THE CELESTIALS

Shanghai, the Paris of Asia—Boat Life on the Great River Yang-tse-Kiang—Peculiar Belief Concerning the Making of Medicines in America.

[illegible] about midway on the Pa[illegible] between the northern and [illegible] of China. It is near [illegible] though not on, the great [illegible] which divides [illegible] equal portions, and [illegible] great central avenue of [illegible] one of the greatest and [illegible] rivers of the world, [illegible] with the Nile in the rich de[illegible] which it carries down from the mountains of Thibet and spreads over the rich plains of China. Its waters where it enters the sea are as yellow as clay, and their contents are, I am told, as rich as guano. They form a fertilizer which the Chinese use by irrigation, so that it is spread over much of the 548,000 square miles which forms its basin and makes this land produce from two to three crops per year.

LIFE ON THE YANG-TSE-KIANG.

The Yang-tse Kiang has a fall nearly double that of the Nile or the Amazon. It is so wide at its mouth that when we sailed up it in coming to Shanghai we for a long way were hardly able to see the banks, and this width extends up the river for hundreds of miles. It is navigable for ocean steamers to Hankow, a city of the size of Chicago, which is situated on its banks 600 miles above Shanghai, and river steamers can go 1,200 miles up its winding course. Above this there are gorges and rapids which the foreigners now think can be passed, and there will then be an opening into the interior of China by this means for more than 2,000 miles. The Yang-tse-Kiang is so long that it would reach from San Francisco to New York and push its way out into the Atlantic if it could be stretched out upon a plane of the face of the United States. It is longer than the distance from New York to Liverpool, and it is said to be the best stream in the world as to the arrangement of its branches. Its boat population is numbered by hundreds of thousands, and it is a city hundreds of miles in length, made up of junks, ships and barges. These Chinese junks are gorgeously painted and carved. They have the same style of sails and masts that were used thousands of years ago, and their sails are immense sheets of cotton patched together and stretched on rods of bamboo which look like fishing poles. The sailors are pig tailed men in fat clothes of cotton who sing in a cracked gibberish as they work, and who understand how to manage their rude sails so well that they can often pass ships of more modern make. All of the Chinese boats have a pair of eyes painted on the sides of their prows, and the Chinese sailor would no more think of navigating without these than he would think of eating without chopsticks. If asked the reason he replies:

"No have eyes, no can see. No can see, no can go."

Bishop Fowler, while sailing up the Pie Ho to Peking, happened to sit with his legs hanging over the boat so that they covered up one eye. He noticed that the sailors were uneasy, and they at last came to him and asked him to move his legs, as the ship could not see to go.

CELESTIAL SUPERSTITIONS.

The Chinese are full of superstitions and many of them firmly believe that the foreigners make medicines out of human beings. The massacre at Tien-Tsin in 1870, in which twenty foreigners were killed and among them a number of French nuns, was caused by the report that the sisters were killing children to get their hearts and eyes for medical purposes, and the trouble in Corea last spring was caused by the circulation of the stories that the missionaries were grinding up children's bones to make medicine. This report was started by the Chinese, and the latest attempt of the kind I find today here at Shanghai. It appears in a tri-monthly illustrated magazine which the Chinese publish and which sells for five cents a copy. This contains a full description of how the foreigners make their medicine, with ghastly illustrations of the severed trunks and the cut up limbs of human beings. In one cut men in American clothes are bending over great furnaces in which the heads and legs of men are boiling, and beside which great baskets and tubs of cut up humans lie. The men are stirring the steaming mass, and the picture makes one think of the witches' caldron in "Macbeth."

The Chinese themselves do not believe in dissection and there is no body snatching here. They believe that the heart is the seat of thought, that the soul exists in the liver and that the gall bladder is the seat of courage. For this reason the gall bladders of tigers are eaten by soldiers to inspire them with courage. The Chinese doctor ranks no higher than the ordinary skilled workman. He gets from fifteen to twenty cents a visit, and he often takes patients on condition that he will cure them within a certain time or no pay. He never sees his female patients except behind a screen, and he does not pay a second visit unless he is invited. His pay is called "golden thanks," and the orthodox way of sending it to him is wrapped in red paper. The dentists look upon pulled teeth as trophies, and they go about with necklaces of decayed teeth about their necks, or with them strung upon strings and tied to sticks. Toothache is supposed to come from a worm in the tooth, and there are a set of female doctors who make a business of extracting these worms. When the nerve is exposed they take this out and call it the worm, and when not they use a sleight-of-hand by which they make their patients believe certain worms, which they show them, come from their teeth. I have heard persons tell of Chinamen who claimed to have had ten worms taken from their mouths in a single day, and I saw a woman actually at work upon a patient in the street here. China is as full of superstition as the West India Islands, and the people like to be humbugged quite as well here as we do in America.—Frank G. Carpenter.

A Bald Headed Combine.

The young men of New York have a secret sorrow, which is growing in intensity and threatening to sap their budding lives. If this sorrow grew less, and their hair grew more, they would, indeed, soon be supremely happy; for it is the continued increase of baldness in their ranks which thus afflicts them. Time was when, in a theatre, a church or any public place where men uncover, the hairless heads, with few exceptions, were the property of men of middle or advanced age. Now, however, it is safe to say that at least half of them have encumbered the earth for less than forty years, and many for less than thirty; while a certain percentage between that age and 25 give evidence of rapidly approaching baldness.

So general, indeed, has baldness in young men become, that sensitiveness regarding it is fast disappearing, and it has ceased to excite comment in the drawing room. Men of years, too, who formerly devoted somewhat of their toilet hour to carefully combing cultivated locks over spots where locks were no longer possible, have ceased to burden their minds with this detail, and go out into the world strong in a consciousness that the shining space cannot affect their matrimonial value in the market.

The fact that at a recent dinner in the Brunswick five gentlemen, all under 45, were grouped together at one end of a table, presenting to view five shining heads, led to the discussion of a project for a "bald headed club." It was suggested that a social organization, based on this condition, be formed of gentlemen of congenial tastes and habits, and it is said the scheme will soon take definite shape. The serious business of the club will be to consider the possible restoration of hair, and each member will be pledged to test the virtue of some advertised medium, the result to be reported at a monthly dinner.

Barbers are looking forward to a boom in hair restorers in consequence.—New York Star.

Knowledge Without Books.

The personal friends of William R. Grace say that he never opens a book to read it, and only skims over the daily newspapers, and yet is one of the best informed men on general subjects in the city. Reading bores him. He despises the flowers of rhetoric, and has no patience with unimportant details. Life is too short for these. He wants his information as results from the mouths of those who have studied and know. Hence he keeps a few smart, well informed men around him, and has cultivated the friendship of specialists in every sort of learning and affairs. He is never ashamed to confess ignorance on any subject, and as soon as anything is presented which he does not understand, seeks at once some one who does. Then he gets immediately to the point of the subject, which he has a genius for striking on the head in half a dozen terse questions.

He always remembers what is told him, and puts his pieces of rapidly obtained knowlege together with a logic which makes a stranger think he is a finely read man. When the person is not at hand to enlighten Mr. Grace on some point he wishes to clear up, he does not forget it, but if a month afterward he meets the man who knows, he pops the question at him abruptly. Not only business, governmental and historical affairs and current happenings are thus handled by him, but questions of art, science and philosophy.—New York Sun.

Pensions for Postal Clerks.

The last and greatest need of the postal service is the total and complete elimination of partisan considerations as affecting appointment and removals in the working force. The spoils method invariably brings into the service a lot of do nothings or a race of experimenters, whose performances never fail to breed disaster and to crush out substantial progress. It is due to President Cleveland to state that toward the close of his administration he recognized the importance of permanency in the railway mail service, and that he made a long step in advance by approving a series of rules submitted by the civil service commission having for its object the removal of the service from the influences of politicians.

It needs more than this, however; it needs the sanctity of the statute law declaring that the clerks should not only keep their offices during good behavior, but that after twenty years of faithful and efficient service, or before that time if injured in the discharge of their duty, they should retire on half pay. In case of death from accident while on duty proper provision should be made for the family of the official. Whenever justice is done by congress in these particulars the United States will have the best and most efficient railway mail service in the world.—Gen. Thomas L. James in Scribner's Magazine.

Long Tailed Sheep.

There are no species of sheep indigenous to Australia. The fat tailed sheep is found in Asia and Africa, in Syria, India and China, also in Barbary, and such large numbers are raised in the colony of the Cape of Good Hope that it is often known as the Hottentot sheep. This sheep is of small size, with soft and short wool. Its peculiar characteristic is the enormous development of the tail, by the growth of a large mass of fat on each side of the lower part of this appendage. This is sometimes so great that the tail alone has been known to weigh seventy pounds or more. This tail is esteemed a great delicacy for food, and to protect it from being injured by being dragged on the ground, the shepherd often places it upon a board or a small truck with wheels, which is attached by a light string harness to the body of the animal.—New York Telegram.

The Kind They Like.

"What kind of stories do bald headed men prefer?" asked McSwilligan.

"Don't know. I'm not bald," replied Squildig. "What kind?"

"Hair raising stories, of course."—Pittsburg Chronicle Telegraph.

FREDDY'S TIME TABLE.

Result of His Endeavor to Save Two Hours a Day by System.

My little nephew ran across, somewhere, a paragraph which said that anybody could save at least two hours of waste time a day by running on a time table. Freddy brought the chapter to me and asked what it meant. I told him. I advised him to make out a time table for himself and try running on it for a few days. He said he guessed he would. In a day or two he submitted the following to me:

A. M.

6:45 to 7—Gettin' up.

7 to 7:30—Bath and gettin' reddy for brekfus.

7:30 to 8—Brekfus.

8 to 8:20—Prairs.

8:20 to 8:30—Hard study.

8:30—Start for skool.

9—Get there (a feller must have some fun in life).

9 to 10:30—Study and resite.

10:30 to 10:45—Ress (out to be longer).

10:45 to 12—Study and resite.

P. M.

12 to 12:15—Goin' for lunch.

12:15 to 12:30—Eatin' it.

12:30 to 1—Sloos of things. Playin' ball mosly.

1 to 3—Skool agen. Tuffest part of the day.

3—Skool over. Fun begins.

3 to 6—Baseball. Bisickle ridin'. Goin' to walk (sumtimes with a girl). Slidin' and skatin' in winter. Flyin' kite. Botherin' the dog. Peanuts. Goin' to ride with pa. Shoppin' with ma (wen I don't kno it beforehand). Kandy. In bad weather readin'. Sloos of other things.

6 to 7—Dinner (grate time for me).

7 to 7:30—Nothin' much. Don't feel like it.

7:30 to 8—Pa gets dun with paper, an' reads sunthin' alowd.

8—Sez I must begin to study.

8 to 8:15—Kickin' against it.

8:15 to 9:15—Study.

9:15—Gwup to bed.

9:15 to 9:35—Windin' Waterbury watch.

9:35 to 9:45—Undressin' and gettin' into bed.

9:45 till mornin'—Grate big times with dreems, but a feller can't stop to enjoy them much. Wonder wy dreams can't hang on more like reel things?

P. S.—Ware do thos' too extry 'ours cum in?—Phrenological Journal.

Something Appropriate.

Miss Agnes—Won't you ask your friend to sing something for us?

"She can't, Mr. Phersey; the poor girl is dumb."

"Well, what's the matter with one of Mendelssohn's songs without words?"—Pittsburg Dispatch.

Not in Their Set.

Mrs. Tiptop—I see you have new neighbors, James. Are they society people?

James (Mrs. Highup's servant)—Guess not, mum. I seed the man o' the house comin' home last night with his arms full o' newspapers an' magazines.

Not an Old Master.

Vistor (to butler who is showing him through the picture gallery of the old mansion)—That's a fine portrait. Is it an old master?

Butler—No. That's the old missus.—Boston Courier.

A Valuable Voice.

Mrs. Voix—My husband has a magnificent voice, and it supports our whole family.

Mrs. Caller—A tenor singer, I presume.

Mrs. Voix—No, he calls out carriage numbers at an uptown theatre.—New York Sun.

A Genuine Surprise.

Maddern—Are you the fellow that stole my umbrella?

Snagit—Yes, why? Do you want it?

Maddern (aghast)—N—no, keep it, and I'll send over the cover today.—The Epoch.

A Sentence Commuted.

"I thought, young man, that I told you not to stir out of the yard today," said a stern parent, "and here you are down town."

"Ma'am has commuted my sentence to doin' errands for her."—Hartford Post.

Literature's Decline.

Great Publisher (looking over a manuscript)—Your language is not as flowing as formerly.

Great Author (apologetically)—I wrote that on a typewriter.—Philadelphia Press.

The Composition of a Face.

Tubbs—I flatter myself that honesty is printed on my face.

Grubbs—Well — er — yes, perhaps—with some allowance for typographical errors.—Burlington Free Press.

Lots Like Him.

Wales—I suppose women are all alike. My wife is always coming to me for money.

Albert—What does she do with it?

Wales—She doesn't do anything with it. I never give her any.—Boston Beacon.

He Even Reads the P. S. Twice.

No young woman can write a letter without a postscript, but the young man who gets the letter never seems to mind.—Journal of Education.

How George Won Her.

"It grieves me to give you pain, Mr. Ferguson, but I fear it can never be. Try, try to forget me."

"I'll try, Miss Laura," replied the young man, in a melancholy, hopeless way. "Absorbed in the vortex of business, as I shall be henceforth, I may be able to still the clamor of my aching heart and banish your sweet image from my mind."

"Then you contemplate going into business?"

"I have made arrangements," he said, in a hollow voice, "to open a large retail confectionery store."

"O, George!" exclaimed the beautiful girl, wildly, as she flung herself into his arms, "the sight of your suffering is more than I can bear. I am yours!"—Chicago Tribune.

Used by the United States Government. Endorsed by the heads of the Great Universities and Public Food Analysts, as the Strongest, Purest and most Healthful. Dr. Price's Cream Baking Powder does not contain Ammonia, Lime or Alum. Dr. Price's Delicious Flavoring Extracts, Vanilla, Lemon, Orange, Almond, Rose, etc., do not contain Poisonous Oils or Chemicals.

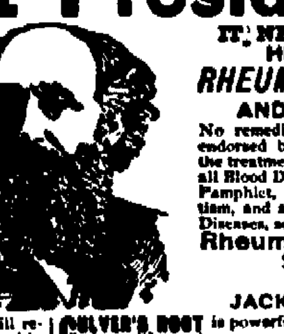

PRICE BAKING POWDER CO., New York. Chicago. St. Louis.

Our Next President

TO THE PUBLIC:

WE SUBMIT OUR FORMULA for your kind consideration. It is not a peculiar remedy put up to sell for a cent a dose. We challenge the world to produce a medicine equal to it in merit as a family remedy. The combination makes it the greatest

Blood Medicine IN THE WORLD.

IT NEVER FAILS. HIBBARD'S RHEUMATIC SYRUP AND PLASTERS.

No remedies known so highly endorsed by its home people, in the treatment of Rheumatism and all Blood Diseases. Our Medical Pamphlet, treating on Rheumatism, and all Blood and Female Diseases, sent free on application.

Rheumatic Syrup Company, JACKSON, MICH.

CASCARA SAGRADA. As a laxative it will restore the bowels to their normal condition without pain or griping, and has remarkable virtue in the treatment of habitual constipation, indigestion, and as a tonic for the stomach it has no rival, as used in this syrup.

BLACK COHOSH, as used in this syrup, is a powerful and useful remedy, acting primarily on the nervous system, kidneys and uterine organs.

UNICORN ROOT. In all diseases of women it stands first and foremost as a tonic and regulator. Its value cannot be overestimated as used herein.

TAMARACK is tonic, diuretic, alterative and laxative.

CULVER'S ROOT is powerfully cholagogue, working with great energy on the liver. It is also an excellent tonic, laxative and alterative, acting upon the secretive and absorbent glands of the body.

MANDRAKE is powerful in its action, working with great energy upon the liver and small intestines, and is invariably used for habitual constipation.

BURDOCK has no equal for the cure of Rheumatism, Syphilis, Kidney, Liver and all Skin Diseases, as used herein.

POKE ROOT is cathartic and anti-scrofulous; highly esteemed for its virtues in curing Gout, Rheumatism, Syphilis, Scrofula, Cancer and all Skin Diseases.

IN ADDITION to the ABOVE, which are everywhere recognized by the MEDICAL FACULTY as being the best known Blood Tonics, our medicine contains RARE DRUGS, rendering

Hibbard's Rheumatic Syrup

UNRIVALED in merit. It is a Safe Family Medicine, because it contains no poison or opiates. Children, invalids and delicate persons will find it the best medicine and tonic they can use. No home should be without it. Always in season, *Spring, Summer, Autumn and Winter.*

If you cannot procure it of your druggist, send direct to us. Price $1.00; 6 bottles $5.00. Plasters 25c.

TESTIMONIALS WORTHY OF CONFIDENCE.

My daughter Maud has used Hibbard's Rheumatic Syrup and Plasters, which you so strongly recommended her to try for inflammatory rheumatism. Her limbs were badly swollen, and the poor girl was in terrible agony. In the midst of the pain we wound the Plasters about her limbs, and, as a result the swelling was reduced and she became quiet and rested. The syrup corrected her indigestion, cleansed the rheumatic poison from her blood, and she is now able to be around the house. Hibbard's Rheumatic Syrup and Plasters are remedies of great merit. REV. J. ROBERTS, Pastor First M. E. Church, Fremont, Mich.

ALBION, Mich., Dec. 20, 1887.—While employed as agent of the Michigan Central Railroad Company at Augusta, Mich., about seven years ago, my kidneys became diseased, and I have been a great sufferer ever since. Have consulted the leading physicians of this city and Ann Arbor, and all pronounced my case Bright's disease. Suffering under a very severe attack in October last, began taking Hibbard's Rheumatic Syrup, and am today a well man. It affords me pleasure to render suffering humanity any good that I can, and in speaking of the remedy, allow me to say that I think it the greatest medicine in the world. E. LANZILAER, Agent M. C. R. R.

—At the closing session of court today the Sheriff's sale of the Wandle land, north of town, in the case of Gross vs. Wandle, was set aside. The land had been sold to Hod Riley for $1550.

—At the Christian church tomorrow at 11 o'clock, a. m., the subject will be: "Power of God;" in the evening "The Gospel." All are cordially invited.

W. L. NEAL, Pastor.

—Mrs. and Mrs. Geo. Musser returned home this morning to their home at Kent, after a short stay in this city. Neal Moore is now in the charge of the C. and A. eating-house at the Junction, of which Mr. Musser is proprietor, until the return of David Kesler.

—The Rob't Kerr heirs have effected a compromise with the western legatees whereby a settlement is made in case the will can be set aside. We are not in possession of the terms of the agreement but the property will go to the heirs direct in the event of the setting aside of the will.

—Our attention has been called to the length of time which railway trains are in the habit of holding the crossings, and obstructing the thoroughfares. It is certainly unnecessary that any train should remain on any street crossing longer than the law provides, and the authorities should see that the rules are strictly obeyed.

—On April 27th and 28th the N. Y., L. E. and W. R'y will sell excursion tickets to New York. Tickets good for return until May 6th, inclusivive. Account of centennial celebration of the inauguration of George Washington.

—Miss Lena Zachman, who has been dangerously ill with consumption for some time, died at her home, a few miles south of town, this morning, aged about 23 years. Her funeral will take place Monday morning at 10 o'clock from the Albright church.

—A number of young rowdies and toughs, who care nothing for law and order, are in the habit of creating as much disturbance as possible when returning to their homes at night, east of town, by the firing of pistols, and the use of loud and profane language. Such a nuisance should be put to an end, not only because of the disturbance created, but the endangering of life by the firing of pistols balls about in the darkness.

—Among the many things worthy of mention, showing the good taste and pride of our merchants, are the elegant show windows displaying their different kinds of goods. The thrifty and business-like merchant can always be told by the amount of care which he shows in the arrangement of his windows, and the one who is successful is the one who is always careful in presenting something which will please the public eye, and making his store comfortable, pleasing and attractive.

—Gus Williams will be at Music Hall on Monday night. The Detroit Free Press says: "'Keppler's Fortune,' which is holding the boards at White's is an admirable groundwork for the presentation of Mr. Williams' very clever German dialect comedy. Mr. Williams has the faculty of always keeping his audience in a good humor, and the public does not tire of seeing a good deal of him. Keppler's Fortune is accordingly popular, and presents a comedy picture of New York life which is true in every particular and as natural as it is full of fun."

—I. R. e News: We are told of the narrow escape that a married man and soiled dove of Richwood had last Saturday evening from getting a tar and feathering. These parties have been attending the Saturday night dances at this place the past two weeks, and, as the man has a wife and family at Richwood, his case was taken in hands by some gentlemen from that place last Saturday night, and upon the return of the couple they were met between here and Richwood and an attempt was made to get hold of them, but the man whipped up and succeeded in escaping. A dose of tar would be none too light for these persons, and we are sorry to note that they escaped.

—F. C. Donald, general passenger agent of the Chicago and Atlantic road, has obtained a ruling from Chairman Cooley, of the interstate commerce commission, in the matter of application of differental fares in the construction of joint tariffs. The Chicago and Atlantic is a differential line—that is, it is allowed to make a passenger rate of $15.50 from Chicago to New York, whereas the rate by the more direct routes is $20. The western roads have generally declined to recognize this differential in selling tickets from western points to the east, but have exacted the same fare from a through passenger whether he desired to go east via the Chicago and Atlantic or any other route. Judge Cooley rules that a road has no authority whatever for making a higher rate over a connecting line than the one actually made by that line.

THE SCIOTA WATER CO.

The Council Permits a Transfer of the Waterworks Franchise—Other City Business.

An adjourned session of the Council was held on Friday night for the purpose of meeting Mr. Howland, of the Waterworks Contractors. A plat of Marion, with the hydrants located, was presented and approved by the council, and a resolution transferring the franchise was also passed. The resolution rather permits the transfer of the franchise from Howland & Ellis to The Scioto Water Co., an incorporation organized under the laws of Ohio, composed locally of W. E. Scofield, G. B. Scofield and Chas. Reed. The transfer, however, is barely a formality to comply with the law, and the original holders of the franchise are in no wise released from the bond guaranteeing and early and satisfactory completion of the plant. Mr. Howland also asked the council for a resolution making the city responsible for all the threatened suits from the Bullock failure, but the request was denied. The city is bound to indemnify them, and the resolution was regarded unnecessary.

Mr. Howland informed the council that all machinery and waterpipes had been contracted for, and the work would begin at once and be pushed to completion.

Mayor Gailey appointed M. Stoll and J. H. Weaver members of the Board of Health for the term of three years. Mr. Stoll's is a reappointment and Mr. Weaver succeeds Dr. A. Rhu.

The plats of Hoberman's addition and Lettler's addition were approved and accepted.

The petitions of Owen Tallon et al. for the macadamizing of Patterson street, and J. C. Walters et al. for the improvement of Jefferson street were referred to the Street and Alley Committee.

The bill of G. Crawford & Co. was paid with but one dissenting vote. Mr. Fahey held that his court could not reverse its own decisions.

An Unjust Taxation.

EDITOR STAR.—In a conversation with Assessor Crow yesterday I learned that the law imposes a tax upon building associations' shares to the extent of the amount paid in, even in the case of members who have borrowed out their money.

Such rank injustice to a class of men who are seeking little homes is too outrageous to contemplate with calmness. I would suggest to all members of the Building association, who are borrowers, the policy of waiting a few days before making their returns for taxation, as the Steve bill to afford that class of people relief passed the house yesterday and may yet become a law.

GEO. B. CHRISTIAN.
